## SUMMARY

My knowledge and proficiency in React, JavaScript, HTML, and CSS enable me to design intuitive and user-friendly web applications. On the back-end, I am well-versed in SQL, enabling me to develop efficient databases to support complex web applications and ensure seamless data management. My ability to integrate front-end and back-end components seamlessly allows me to deliver comprehensive and scalable solutions.

I am a team player, adept at collaborating with cross-functional teams, effectively communicating technical concepts to non-technical stakeholders, and contributing to a positive and productive work environment.

With a proven track record of successful project implementations and a passion for delivering exceptional results, I am excited to contribute my expertise to drive innovation and success in a forward-thinking organization.

## EXPERIENCE

### Data Entry

YGN Job Agency

February 2019 – November 2019, Yangon

- Entered and verified data from various sources into the company's database, maintaining data record.

---

## EDUCATION

### L5 Diploma In Computing

Minor in Minor in Programming • KMD Institute • Yangon • 2023

### The Matriculation Examination Pass Certificate

Hpa-an • Kayin • 2018

---

## PROJECTS

### School Management System

School Project • February 2021 – December 2021

- Developed and enhanced a School Management System with modern web technologies including HTML, CSS and JavaScript to provide an interactive admin dashboard and user interface.
- Increased performance and clarity of the School Management System by reducing the load time of pages, improving readability of the user interface, and incorporating automated processes for administrative tasks and data entry.

### Global Wild Swimming and Camping (GWSC)

School Project • March 2023 – July 2023

- Monitored and tracked camping trip bookings, improved customer experience by introducing customer satisfaction surveys, and ensured seamless operations for campsites located in many countries.
- The project's primary objectives are to encourage outdoor enthusiasts and nature lovers to connect with nature, appreciate the environment's pristine beauty, and foster a deeper understanding of the significance of conservation.
